## Turks' Pride WAS HARD HIT

That is Strong Reason Why Armistice Was Rejected

#### THINK THEY STILL CAN FIGHT

Rejection of Conditions of the Armistice Was Sent to the Bulgarian Government To-day, Turks Calling It No Armistice at All.

Constantinople, Nov. 22.—The rejec-tion by Turkey of the conditions for an armistice has been communicated to the Bulgarian government. One cause for the rejection, in the opinion of officials, is that the conditions proposed by the Balkan allies deprived the Turks of the possibility of resuming hostilities in the event that the plenipotentiaries failed to settle on terms. From the Turkish viewpoint, this meant no armistice at

which would compel her to accept such conditions. The terms stipulated by the allies provided for the surrender of Adrianople with its garrison, for the evacuation of Tchatalja line before Constantinople and for the surrender of the cities of Scutaria, Durazzo and Dibra. No mention was made of Constantino-ple or the Dardanelles.

Kiamil Pasha, the grand vizier, de-clared that the allies overtures were 'impossible." He ordered the commander-in-chief to continue, "with the help of the Almighty" until reasonable and moderate conditions were proposed.

This decision came as an utter surprise and diplomats are not wholly coninced that the Otoman troops will really take up arms again in the cholerastricken trenches of Tchatalja.

While the Bulgarian conditions for Bulgaria is acting as the mouthpiece for the allies-were extreme, stipulating the surrender of Adrianople and Scutari, both of which strongholds are making an historic defence, as well as the cossion of all the territory except a narrow strip above Constantinople these conditions were advanced as overtures; in other words, they apparently were put forward as a basis for negotiations.
